Subject: OBJ NOVA MISSION
Importance: High

Chris,

This mission was briefed to A/PM English this morning by CDF and myself. I am assuming that IJC Comd has signed-off on this op and it is now a matter of satisfying your stated Go/No Go criteria. Could you let me know once you have made the call on Go/No Go. Again there is a lot of interest in this op here and across the road and CDF will want to know if it is postponed or cancelled.

If your H-hr stays at PSR(S)2, PSR(S)3 then that is PSR(S)2, PSR(S)3 our time or if it is Sun if it slips. Either way I am quite happy to come into work and clear swan, there could be a requirement for Rian to brief the PM on Sunday evening once he returns from overseas on the outcome of the operation.

Suffice to say short snippets that you can pass back verbally over the phone PSR(S)2, PSR(S)3 and then via Swan would be most appreciated. Having experienced this last time round you know what expectations there are within the senior leadership here in Wgtn.

All the best for PSR(IC)3, PSR(S) and the Sqn.

Peter Kelly
