Where:	Fly on coalition air direct from KAIA to KUNDUZ Airfield, KUNDUZ Province

Why:	<p>TF954 intends to conduct liaison and sharing of target information (JPEL Packs) PSR(S)1</p> <p>The purpose is to disrupt insurgent groups in BAGHLAN with a view to protecting the PRT. PSR(S)1 were the CF that conducting a Kinetic Strike (KS) on OBJ MUSELI (Qari Musa) in May 11. It is assessed that the SOLE will be able to influence PSR(S)1 into supporting the Battle Space Owners and increasing their understanding of the potential threat groups that directly effect the PRT. This is seen as a role that only TF954 would be able to access from an NZDF perspective. The PSR(S)2, PSR(S)3 SOLE will only move to / from CF airbases and not be involved in any other activities.</p>
