

## CDF OPS BRIEF – 24 MAY 2011

Briefed by DDSO.

**Force Laydown** – As shown

**Key Events** – DSO Visit, 28-31 May

**Ops Summary** –

A FRAGO authorising an OPS BOX <sup>PSR(S)2, PSR(S)3</sup> has been approved by ISAF SOF/IJC. BLUF: This allows the activation of an Ops Box for ISAF SOF (TF954) to conduct focused tgt of NZ strat tgts on receipt of actionable int.

RC-N <sup>PSR(S)1</sup> has conducted another couple of DDO's and today a KS that probably killed OBJ MUESIL (Qari MUSA) of the TWB Threat Gp and directly linked to atks on PRT.

Also, on 21 may in a meeting between CO NZPRT and a couple of sources they advised that OBJ NOVA (NEHMATULLAH) is currently detained in PEK, BAGHLAN. OBJ NOVA was responsible for Lt O'Donnells death and there is talk of some of his cronies raising 50K to get him out of detention. **SNO meeting with the Ambassador tomorrow to talk with him about exerting some pressure for OBJ NOVA to remain in custody and be brought to trial for his role in Lt O'Donnells death.**

It is likely that the increased operational tempo is due to:

- <sup>PSR(S)1</sup>
- Increased exposure of the threat Gps by PRT and TF954.
- Expanded ops by <sup>PSR(S)1</sup> Other ISAF SOF

**Training Summary** –

- <sup>PSR(S)2, PSR(S)3</sup> Have remained on MOI directed standby in Kabul this week. CRU <sup>PSR(S)1</sup> led a partnered operation with TF954 and CTP.
- Commanders Operational Planning Module: qualified from the collective units of CRU, CF333, ATF444 and ISU. The aim was to teach Commanders mission planning whilst providing an opportunity for interaction across GDPSU units.
- Navigation Training: Navigation training continues utilising GPS, map and compass. This is being developed during operational deployments.
- Biometric Training/Enrolment: Biometric continuation training and the ongoing biometric enrolment of CRU personnel continues.
- Activity Management and Planning Training: CRU Instructors participated in activity management and planning training with a view to managing and running their Basic Induction Course in the future.

- Literacy Assessments: <sup>PSR(S)1</sup> CRU personnel have had their literacy level assessed to date. Teaching to enhance the literacy level of CRU personnel will commence once all assessments are complete.
- CRU Comd to **PSR(S)1** in support of NATO Acty
